leighborhood Description The subject property is located in the city of Thousand Oaks. The neighborhood is comprised of average quality S	SFR's
that are similar in age, style and overall appeal. The maintenance level varies but is generally average. The neighborhood is situated in pro	oximity
to sources of employment, shopping facilities, freeway access, and all supporting services.	
Market Conditions (including support for the above conclusions) The residential property market has been strong for the past seven years due to hi	igh
demand and limited supply. The COVID-19 outbreak in 2020 disrupted supply and demand, and subsequent inflation caused the Federal	
Reserve to raise interest rates. This rate increase led to a rise in mortgage rates, negatively impacting and decreasing demand for housing	g.* *

Loan #52886 # 69386

Clarification of Intended Use & Intended User(s): The Intended User of this appraisal report is the Lender/Client. No additional Intended Users are identified by the appraiser. The borrower is not an Intended User. A party receiving a copy of this report is not an Intended User. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated scope of work, the reporting requirements of this appraisal report form, and the definition of Market Value, included in the Note: the "Scope of Work" decision is specific to the stated Intended Use and was deemed appropriate for the specifically named Intended User(s). Use of this appraisal for a purpose other than the stated "Intended Use" requires that a new appraisal assignment be completed by the appraiser. Information communicating the scope of work performed, may be included throughout this report, in addition to the scope of work section • Cost Approach Warning: The purpose of Cost Approach is to help estimate and support the subject property's market value (NOT to estimate the Replacement Cost of the subject improvements). Use of this data, in whole or in part, for any other purpose is not intended by the appraiser. Nothing set forth in this appraisal report is intended to be relied upon for the purpose of determining the amount or type of insurance coverage to be placed on the subject property. If used for that purpose, the appraiser assumes no liability for and does not guarantee that any insurable value estimate inferred from this report will result in the subject property being fully insured for any loss that may be sustained. The appraiser recommends that an insurance professional be consulted. Further, the Cost Approach may not be a reliable indication of replacement cost new for any date other than the effective date of this appraisal due to changing costs of labor and materials, as well as changing building codes and governmental regulations and requirements. The Appraised Value is based on a Reasonable Exposure Time of less than 30 days. * Property values then marginally declined, erasing most of the gains made earlier in 2022, and list prices for available properties also decreased. While the number of active listings remains low, and the "Days on Market" (DOM) has increased, although it is low by historical levels. Market conditions can be unpredictable and dependent on supply and demand, which has been impacted by interest rates returning to normal (higher) levels. Interested parties are cautioned to consider the potential for a further decline in value when making decisions related to this transaction. COST APPROACH TO VALUE (not required by Fannie Mae) Provide adequate information for the lender/client to replicate the below cost figures and calculations. Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) High site to value ratio is typical of the subject's market area. Site value has been derived by extraction and/or allocation due to lack of available site sales data in the subject's market area. Describe common elements and recreational facilities.

Loan #52886 ile # 69386

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: to the following assumptions and limiting conditions:

The appraiser's certification in this report is subject

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist.

 Because the appraiser is not an expert in the field of environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Loan #52886 File # 69386

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal
 Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another borrower; the mortgage or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report to: the borrower; another insurers; government sponsored enterprises; other sponsored enterprises; other sponsored enterprises; other appraisal organizations; any department, any state, the District of Columbia, or other jurisdictions; without having to obtain the appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION:

The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Sales Comparison Analysis - Commentary

Methodology & Data: The Sales Comparison Analysis is the primary method of estimating the market value of SFRs. It assumes that sales of similar properties having similar physical and locational factors provide a reliable indicator of value for the subject property. Data accuracy and comparability of each sale property are crucial for credibility. Physical and neighborhood characteristics, as well as functional utility define the search parameters. Sales selected for this analysis are considered the most applicable to the subject or were selected in order to bracket physical or locational factors (consistent with common appraisal practice). Comparable properties represent competitive alternatives in the same market. Transaction details were verified using reliable sources and/or parties involved in the transaction.

With the foregoing in mind, 5 closed comparable sales and 1 pending sale were selected and were chosen as the most appropriate data to estimate the subject property's market value. Although the data may include sales from adjacent subdivisions, dated sales, and properties requiring significant adjustments, these comparables were considered the most relevant for a direct comparison to the subject property.

Comparable Search Summary: The subject neighborhood (see Neighborhood Boundaries on page 1) was searched using the following parameters: detached SFR's between 1,300 sf and 2,150 sf, year built between 1960 and 1980, site area between 8,000 sf and 25,000 sf, sales from 03/22/2022 and 03/21/2023.

Adjustments: To account for dissimilar features between the comparables and the subject property, adjustments have been made to arrive at an indication of value. Available market data, including comparable sales analyzed in this analysis, were used to estimate the market's reaction to differences in specific factors. These adjustments were made to ensure the adjusted sale prices of the comparables reflect the subject's unique characteristics and provide a reliable indicator of its value.

Lack of adjustments for market conditions (time adjustments) are primarily on based on <u>sensitivity analysis</u> using the adjusted comparables, but also on MLS statistical data and simple regression analysis using Spark. Sensitivity analysis and recent MLS sale data was used to support the lack of market condition adjustment. Comp. #2 is located across from a school on a road that is very busy during peak school hours and it was adjusted for inferior location. Site adjustments are based on \$5/sf for significant differences in site utility. No adjustments were applied for minor differences in site area as market participants do not typically recognize very small differences in site utility. Some comparable site sizes were obtained directly from County Assessor's maps and may vary slightly from the site sizes reported by data reporting services. View adjustments were extracted from available sales data that indicated a range of approximately \$50,000 (in competing properties) between "no view" and a panoramic view of city lights and/or mountains. Comps. #3 and 5 have partial mountain views that were deemed to fall near the mid-point in the range and they were adjusted for superior view influences.

The quality and condition ratings align with the UAD definitions, as detailed in the attached addendum. Adjustments were made within the same rating for variations in overall quality and condition, based on visual inspection by the appraiser, M.L.S. data, descriptions, and available photographs. While it was given the same quality "rating" (based on UAD definition), an adjustment was applied to comp. #4 for superior quality due to superior level of upgrades and overall quality of construction. Condition adjustments were also applied to comps. #1 & 3 for superior levels of remodeling and overall condition. Although there are some age differences, no adjustments were made for actual age, as "effective" ages may differ. Effective ages are accounted for in quality and condition ratings/adjustments.

No adjustments were made for number of bedrooms, as all dwellings have similar functional utility and were compared on the basis of their overall gross living area (GLA). GLA adjustments are based on \$115/SF (rounded). No adjustments were applied for minor differences in GLA as market participants do not typically recognize very small differences in living area.

Summary: Among the closed comparable sales that were analyzed, comps. #1-3 were generally deemed to be the most relevant overall and they established the range from which the estimated value was selected. The most important factors were considered to be Gross Living Area (GLA), date of sale, quality/condition, and proximity to the subject. Comp. #1 is the most similar in overall appeal and was given the most emphasis in developing this analysis. Comp. #2 is a recent sale and provides support for the value estimate. Comp. #3 is a dated sale but was used due to limited recent sales data in the subject neighborhood.

While there is considerable weakness in the available market data, comparables #1-5 were deemed to be the best available closed sales and their use is considered to be reasonable and necessary in order to develop the sales comparison analysis.

Lender	Wedgewood Inc							

Site Comments

The subject site is typical in size and has typical site utility for the neighborhood. The improvements appear to be well situated on the site and no apparent adverse easements, encroachments or other adverse site conditions were noted from off-site.

Note: I have not checked the title/land records for recorded easements and have reported only apparent easements, encroachments and/or other apparent adverse conditions. The title policy was not reviewed by appraiser.

- <u>Highest & Best Use</u>: The stated conclusion that the "highest and best" use of the subject property (as improved) is considered to be its present use as a single-family residential dwelling, is consistent with allowable uses under the subject site's zoning designation (1-family residential dwelling), and is supported by the contributory value of the improvements coupled with the remaining economic life of the structure.
- <u>Effective Age</u>: The appraiser estimates the effective age of the subject dwelling to be 40 years. In estimating the effective age the appraiser has considered any physical deterioration, functional obsolescence, and/or external obsolescence observed from off-site on the effective date. No functional or external obsolescence was noted. Thus, the effective age only reflects physical deterioration. The interior is well maintained and the exterior appears to be adequately maintained. For this reason, the effective age is estimated to be less than the actual age of 62 years.

· Exterior-Only : Reconciliation

The Sales Comparison Analysis best reflects the conditions present in the Market Value definition, and best reflects the actions of buyers & sellers in the market. In addition, the market data presented in support of the Sales Comparison Analysis was verified by the appraiser and considered very reliable.

The Cost Approach was deemed to be a less reliable analysis, due to insufficient land sales data and the difficulty of estimating accrued depreciation. This approach was given secondary consideration and it supports the value conclusion of the Sales Comparison Analysis.

The Income Approach was not developed and is considered "not relevant" as similar properties (in the area) are not typically purchased for income production and there is insufficient rental data.

For the reasons stated above, the Sales Comparison Analysis was considered to be the most valid approach and was given the most emphasis in the final value conclusion.

ne purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. Property Address State CA ZIP Code 91360 City Thousand Oaks 1146 Calle Castano Redwood Holdings LLC nstructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc. Prior 7-12 Months ventory Analysis Prior 4-6 Months Current - 3 Months Overall Trend Declining Total # of Comparable Sales (Settled) Stable Increasing 14 5 Absorption Rate (Total Sales/Months) Increasing Stable Declining 2.33 1.33 1.67 Declining Total # of Comparable Active Listings Stable Increasing 4 2 2 Months of Housing Supply (Total Listings/Ab.Rate) Declining Stable Increasing 1.7 1.5 Median Sale & List Price, DOM, Sale/List % Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend Median Comparable Sale Price Stable Declining Increasing \$920,000 \$777.500 \$905,000 Stable Median Comparable Sales Days on Market Declining Increasing 22 13 18 Median Comparable List Price ✓ Increasing Stable Declining \$787,000 \$800,500 \$905,000 Median Comparable Listings Days on Market Declining Stable Increasing 18 86 105 Median Sale Price as % of List Price Increasing Stable Declining 100% 100% 101% Seller-(developer, builder, etc.)paid financial assistance prevalent? Declining Increasing Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo Seller contributions are becoming more common and consist primarily of typical contributions toward non-recurring closing costs. Loan discounts, interest buy downs and concessions have become more common under current market conditions but are not generally prevalent. Are foreclosure sales (REO sales) a factor in the market? Yes No No If yes, explain (including the trends in listings and sales of foreclosed properties). Foreclosure sales have not been a major factor in the subject neighborhood and there has been no measurable trend toward increased foreclosure or short sale activity. In the larger market, foreclosure levels were a past factor but have continued to decline (based on closed sales, pending sales, current listings and public record reporting of foreclosure and pre-foreclosure activity). An analysis was performed on 23 competing sales over the past 12 months. For those sales, a total of 0.0% were reported to be REO Cite data sources for above information The data sources relied upon for this analysis include MLS data, public records and the appraisers database. These sources appear to provide a comprehensive and reliable basis for the conclusions set forth in this addendum and in the market conditions section of the attached report. Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions. In support of the market conditions conclusions set forth in the neighborhood section of the attached appraisal report, the appraiser has analyzed data about competing properties in the subject neighborhood including closed sales, listings, pending sales, expired and withdrawn listings. Analyses are summarized in this market conditions addendum. The number of recent closed sales in the subject price range has declined. At the same time, the number of active listings has declined. This has decreased the downward pressure on prices and the market currently appears to be stable. The overall median days on market indicates properties have been selling in less than 3 months when priced competitively (based on current pending sales). Readers are advised that the results of the 1004MC analysis can be misleading due to reliance on small data samples and inability of appraiser to correct for physical differences in data pool. See Market Conditions Commentary If the subject is a unit in a condominium or cooperative project, complete the following: Prior 4-6 Months Prior 7-12 Months Current - 3 Months Overall Trend Subject Project Data Total # of Comparable Sales (Settled) Increasing Declining Absorption Rate (Total Sales/Months) Increasing Stable Declining Total # of Active Comparable Listings Declining Stable Increasing Months of Unit Supply (Total Listings/Ab.Rate) Declining Stable Increasing Are foreclosure sales (REO sales) a factor in the project? If yes, indicate the number of REO listings and explain the trends in listings and sales of oreclosed properties Summarize the above trends and address the impact on the subject unit and project. UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high-level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Client File No. 34031572 Page # 24

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

03

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

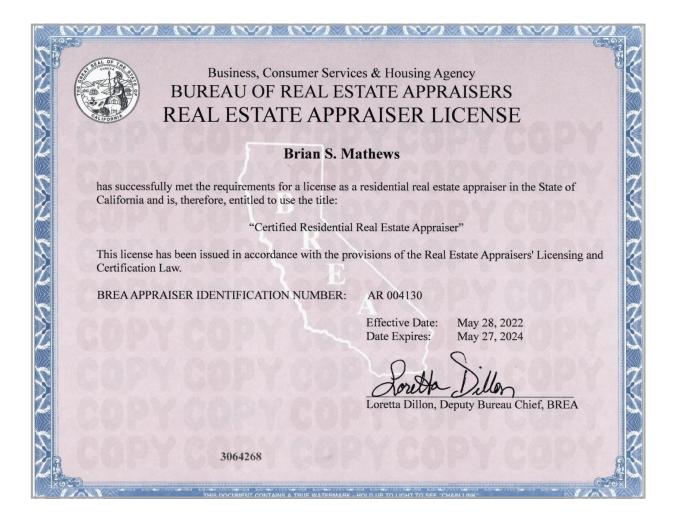

3.2 indicates three full baths and two half baths.
