<b>Comments Regarding Pricing Strategy</b>		
<p>The subject property is an SFR home last sold on 11/04/2022 for \$162500 located in Hallie Heights Sub subdivision. Current market value varies from the prior as the market is increasing and value is based on recent market. The MLS was searched for comps by the following search parameters: GLA range of 1770 to 2656 square feet, within 1 mile radius 1995 to 2015 year built range, and 3 months' time for sold comps. The comps that were closest in size, age, style, location and room count were chosen for this report. The lot size tolerance for comps had to be extended in order to locate properties that supported the subject GLA and attributes. Subject is unique in bed/bath count. so I have used the best comparables available. Based on similarities to the subject, Sale 2 and List 1 were the most comparable. Comparable (CS2) received multiple offers which resulted in an increased final sale price relative to list price. The value for the subject was weighted the most towards these two comps for that reason. Subject is located near highway, commercials, school, overhead powerlines and busy street. Due to limited comparable from same location, it was necessary to use comparable from across the busy street but from similar neighborhood. However, it will not impact subject's marketability. Subject details are taken from tax record. No clear subject pictures available since the subject is behind lot of bushes.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
