Comments Regarding Pricing Strategy		
<p>Due to suburban density and the lack of more suitable comparisons, it was necessary to exceed over 1 mile from the subject, over 6 months from inspection date, guidelines for gla, lot size, age and some recommended guidelines when choosing comparable properties. Proximity to the highway would not affect subject's marketability and both sides of the highway are similar market areas. Commercial presence for the subject would not affect the subject's condition or marketability. The subject should be sold in as-is condition. Value best supported by sold comp 3 and list comp 3, being the most comparable to the subject. There is lack of similar GLA comps available within a mile so the comps chosen were the best available and closest to the similar size as the subject. Subject appears to be currently occupied verified from the tax record. The comps I have used in this report are shows current market condition. So the value I estimated would be the best value for the subject.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
