* Listing 2 is the most comparable listing to the subject.

¹ Comp's "Miles to Subject" was calculated by the system.

² Comp's "Miles to Subject" provided by Real Estate Professional.

³ Subject \$/ft based upon as-is sale price.

Listing Comments Why the comparable listing is superior or inferior to the subject.

Listing 1 single story just like a subject property with similar square footage. it is superior to the subject property because it has a bigger lot and the house inside walls are painted, but on the outside looks the same. This property is very close 0.2 miles away.

Listing 2 similar listing, single story home just like the subject, close to the subject property, i would use this property for the comparable. The property is older only by 1 year

Listing 3 This property is superior to the subject property, it has a much bigger lot. Same single story structure and same square footage, newly painted walls inside and new vanity.

Reasons for Adjustments Why the comparable sale is superior or inferior to the subject.

- Sold 1** structure from the outside looks identical, the same condition, and close to the subject property, build same year as the subject property. this property has one extra room 1/2 bathroom, but was sold significantly for less than what the properties are currently are selling for
- Sold 2** This is the comparable I would use for the sale price, Similar floor plan, same condition, single story, same amount of rooms, close to the subject property.
- Sold 3** a bit farther away, but similar condition of the property, same amount of room, close in square footage. Superior to the subject property newer contraction
