Per the scope of work identified, the visual and exterior inspection was co	mpleted by the appraiser, no internal inspection was made as this is a
drive by exterior appraisal only. The information provided by MLS and pub	lic record is deemed sufficient to comply with the requirements of the
scope of work. The appraiser's observation included noting the exterior appraiser.	
appraiser is not a home inspector. This report should not be relied upon to	disclose any conditions present in the subject property. The appraisal
report does not guarantee that the property is free of defects. A profession	nal home inspection is recommended. All photos of the subject
property contained in this appraisal are original digital photographs taken	
Photos of comparable sales and listings have been taken by the appraise	
MLS#NDP2206568. The GLA was used from public record and MLS and	could not be verified being an exterior inspection. *As this report was
an exterior-only inspection, the appraiser has utilized extraordinary assum	ptions in this report. The appraiser has utilized the extraordinary
assumption that the subject property was in typical overall interior condition	n for the age of the subject. In other words, the appraiser has utilized
the extraordinary assumption that the subject's interior condition and qual	
at a later date this extraordinary assumption proves to be false, the assign	iment results may be impacted/affected. As a result, if the
extraordinary assumptions utilized in this report proves to be false, this re	port should be considered null and void in it's entirety.
*The subjects occupancy is checked as tenant being the last data on MLS	notes that the accurancy was tanant although could not be varified
The subjects occupancy is checked as tenant being the last data on wits	notes that the occupancy was tenant although could not be verified.
*AMC Registration # for ClearCapital.com, Inc: California 1256	
**It has been noted that the appraiser made every attempt to get a go	od front view of the subject house but was unable. From the
front land area the brush is overgrown and thick trees block the sub	ect house view from all angles. The appraiser went past no
trespassing signs and a private road trying from many angles to get	
and trees as well as some plastic carports obstructing the view. The	appraiser did from the side try to zoom in on a minimally visible
side of the subject view but the picture did not come out. All that is p	rovided is the best that could be attained. MLS#NDP2206568 has
assisted the appraiser with the homes layout, grounds and exterior a	nd interior condition as last listed on MLS.
, , , , , , , , , , , , , , , , , , ,	
The subject is located within an reasonable distance from the annual	sers home based office. Further, the entrainer has entravimetally
The subject is located within an reasonable distance from the apprai	
12+ years experience appraising in the market, and specifically the z	p code/market in question and geographically competent.
The subject is noted to be on a private road the following three items	apply:
1) No contact was aviable that could be reached to assist the apprais	
appears it would be the adjoining neighbors that share the road but	his could not be verified and is only an assumption.
2) The road does appear to provide year round/all weather access.	
3)In researching similar comparables as noted in the sale compariso	n addendum: not enough market evidence for similar
comparables was available to warrant an adjustment +/- although all	
value being the subject is on a private road. Comparable 2 is noted in	n this appraisal to be on a private road as the subject is and no
significant impact on marketability appears present compared to Co	mparable 2 and other comparables used in this report that are not
on private roads. The appraiser has done a extensive research of the	
	area seeking nomes on private roads and data was extremely
limited as noted making no adjustments + or - supported.

Freddie Mac Form 2055 March 2005

UAD Version 9/2011

Page 3 of 6

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Fannie Mae Form 2055 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Freddie Mac Form 2055 March 2005

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

The prior sale of Comparable 5 was researched however no previous listing was available however the most recent sale was a complete inside and outside remodel from it's former purchased condition Analysis/Comments Comparable 4 was sought after as it has two outbuildings that both appear to have similarities to the subjects outbuildings. This comparable has a limited sight view and inside condition appears not remodeled other than the kitchen. Adjustments are as noted. It has been observed this home has sold significantly higher on the market but was used in this report as it is the only comparable that could be found with two outbuildings *Very limited listings were observed the most similar has been chosen based on location. Comparable 5 is the closest in location and was observed to be listed higher especially considering it is a smaller home on a smaller lot however it was observed this home has been significantly remodeled inside and out with the most current trends in design and materials. Adjustments are as noted. The agent was reached and this property was listed at \$1,150,000 however is under contract as noted at \$1,125,000 as the agent was spoken to and informed the appraiser this sale is set to close in a week

Supplemental Addendum

File No. 53341

Borrower	Redwood Holdings LLC							
Property Address	1147 Merritt Dr							
City	El Cajon	County	San Diego	State	CA	Zip Code	92020	
Lender/Client	Wedgewood Inc							

Subject - Sale/Listing History Amount, Date, Data Source & Record Number

The subject was offered for sale on 06/22/2022 for \$1,299,000, per CRMLS #NDP2206568. The listing is classified as Expired with an off-market date of 11/11/2022 and a final list price of \$1,299,000. *MLS#NDP2206568 on MLS#NDP2206568 notice of default is noted and observed by the appraiser. The list price of this expired listing appeared significantly high.

Neighborhood - Description

The subject neighborhood is comprised mostly of two story, wood and stucco on block dwellings between 1,500-4,500 sqft that are for the most part well maintained with effective ages less then the actual ages. The subject is located on the bottom portion of what is called Mt. Merritt. This area of El Cajon is small considering the overall area and consist of many custom homes that many located on the side and top of the mountain have extensive vast views overlooking the city of El Cajon. The subject does have a minimal mountain view it appears from the second floor however is as noted not located on the higher portion of the mountain being at the base. The condominium complexes in the area are similar in style, amenities and condition. Convenient location and what appears as a good school system.

• URAR: Market Conditions

The market trends for the last 8 years were researched specific to the subjects area for single family residences using MLS and Zillow to assist the appraiser. It was observed that the data shows since September 2015 to March 2019 a steady subtle increase was the trend then the market shifted to a be stable until August 2019 where the increase started to rapidly increase most between July 2020-July 2021 where it then stabilized till November 2021 to June 2022 before shifting to a more rapid declining trend that is the most current trend. This current declining trend appears as a correction from what the previous rapid appreciation as noted. In the last year as Zillow validates and MLS confirms the single family residences in the subjects area have declined at a rate of -2.4%. Please see more details on the time of sale adjustment as made in this report to the comparables. Overall the subjects area does appear to less than average market. Much data has been researched and reconciled as part of understanding the most current market trends as compiled in the housing trends as well as the attached 1004MC report and graphs have been added to support the viewer.

• Exterior-Only: Improvements - Condition of the Property

The subjects condition was determined by drive by exterior condition but most by the MLS listing NDP2206568 that expired 11/10/2022. The subject is noted to be on a large slightly sloped 1.67 ac lot with 2 outbuildings a in ground pool and 2 car detached garage. The kitchen appears was remodeled at some point and overall the condition appears average however the design does have some quality improvements what appears when built such as a large sunk in tub in the primary bathroom with stained glass window overhead. Vast windows in what appears a sitting room was observed. It was noted that the home has a detached garage and two outbuildings. One is noted as being used as a lab at the time of this listing and the other as a library. No mention of bathrooms being in these outbuildings and as this was a drive by with no full inspection the details are limited. This appraisal has not checked that the subject has a ADU (accessory dwelling unit) as the MLS does not note either of the outbuildings as being a ADU and does mention permits are unknown. Based on what could be seen the home reflects slightly less then typical age life depreciation. No major functional or external inadequacies were observed that would have a negative affect on marketability other than the private road that partially does not appear maintained as well as the back portion that leads up to the subject property.

*It has been noted that no interior photos of outbuilding #1 were available on the MLS#NDP2206568. The only provided interior photos available on MLS of the two outbuildings was for the 2nd outbuilding being used as noted on MLS as a lab. The first noted as being used as a library only has a exterior photo as has been provided to assist the viewer.

• Exterior-Only: Sales Comparison Analysis - Summary of Sales Comparison Approach

*The appraiser has researched the subjects market area and used paired sales analysis for many adjustments as noted below and in some cases historical pared sales analysis when necessary.

*Adjustments which exceed standard guidelines are not detrimental to this report but were considered necessary when made typically due to a lack of more similar sales as was the case with this report and to provide further support to the appraisal overall. The adjustments made in this appraisal are market derived based on paired sales, historical data, Sensitivity Analysis marketability Analysis, realtor interviews, etc. Marketability Analysis is a method utilizing indicators which determines the value or sales price of a property. Sensitivity Analysis is a technique used to determine how different values of an independent variable will impact a particular dependent variable under a given set of assumptions.

*Across the board adjustments for age and lot size were unavoidable as the best comparables have been used most especially seeking homes more similar in appeal overall and not located on a hilltop with a elaborate view or significantly remodeled as both these features have a significantly positive market appeal and sell for significantly higher and were only considered when used as a listing in this report.

*This was a complex assignment due to the lack of more similar sales closer. The most similar sales with similar appeal were located South in Mt. Helix area as no other similar sales were located on Mt. Merritt where the subject resides. Mt. Helix has many similarities and no location adjustment was necessary. The subject was observed to be on a private road that appears only partially maintained condition however not enough market evidence for similar comparables was available to warrant an adjustment +/- although all has been taken into consideration in the final determination of value.

*For time of sale adjustments the appraisers research as noted above under market conditions addendum applies with a regression analysis having been performed and graphs also been added to assist the viewer as part of the 1004MC that further supports the adjustments as made. Zillow and MLS show from the last year a overall -2.4% declining trend since June 2022 and a -.75% has been applied taking into consideration list prices and days on market. The time of sale adjustment supported has been applied based on all data analyzed and taken into consideration all market trends including list to sale price differences.

*Lot size adjustment was made when a difference of 1,000 sqft from the subject based on methods of abstraction and allocation to best determine the market appeal any adjustments were applied at \$.45 per sqft for a difference +/- 3,000 sq. ft..

*The subject does appear to have a minimal view that data researched supports a \$15,000 for when no view was available as with comparable 5. Comparable 1 has a slightly superior view as was adjusted for at \$25,000. When superior elevated

Supplemental Addendum

		ouppicinicital Addendam	1 116 11	10. <u>5334</u> I
Borrower	Redwood Holdings LLC			
Property Address	1147 Merritt Dr			
City	El Cajon	County San Diego	State CA	Zip Code 92020
Lender/Client	Wedgewood Inc			

File No. E2244

panoramic views range from \$30,000-\$100,000 and the adjustment for comparable 3 was made at \$50,000 compared to the subjects view.

- *No adjustments were deemed to be necessary for differences in design (style) as the subject/comparable design styles are all generally acceptable in the subject's market area unless otherwise noted herein and it was not verifiable but possible based on the subjects size and bedroom count to have a full bedroom on the first floor.
- *Age adjustment was made in comparison to the subject for \$2,000 per year for a difference +/- 10 yrs. It was necessary to have across the board age adjustments as no other more similar sales were available other than as provided.
- *Condition adjustment for the quality and condition ratings for the subject was based on analysis of market reaction based on similar sales in the marketplace in comparison to the subjects last known MLS NDP2206568 and exterior inspection. The appraiser has utilized as well as historical paired analysis specific to the subjects market area to determine the adjustment values as made. For the condition adjustment for comparable 5 the appraiser used comparable 3 as a matched paired analysis where the \$100,000 adjustment for condition was derived from as comparable 5 has been completely remodeled inside and out.
- *Bedrooms were adjusted at \$5,000 each if more or less then the subject based on market reaction, function and appeal. The market did not show enough data for homes with 6 bedrooms therefore only when less then 5 was an adjustment applied.
- *Bathrooms were adjusted at \$5,000 for half bath and \$20,000 for full in comparison to the subject. Having 3 full bathrooms does appear to have a more significant impact than only having two bathrooms and considering the overall size of the home.
- *The GLA adjustment was developed at \$140 per square foot. The results (based on all adjustment methods that were calculated and considered relevant) provide an adjustment range from \$47 to \$294. Depreciated Cost, Median Grouped Data, Average Grouped Data, seven different types of simple regression, and Sensitivity Analysis were the adjustment methods were utilized in developing this adjustment.
- *Central air is considered to have a positive market appeal and function therefore the comparables with a difference to be similar to the subject were adjusted by \$15,000 as noted.
- *Overall solar does have a marketable appeal and is found in the subjects neighborhood and with some of the comparables as chosen. No weight or value was given to leased solar being it is not owned *Adjustments for \$15,000 in comparison to the subject.
- *Garage Space adjustments was developed at \$10,000 per space +/- in comparison to the subject having 2 car garage.
- *Comparable with no pool where adjusted at \$10,000 based on the subject has a in ground pool.
- *Outbuildings are not uncommon in the area and depending on condition and having a bathroom or not have a positive market appeal. Without inspection of the outbuildings no weight was given to them for the subject in comparison to comparables with and or without them. Every effort was made to find comparables with outbuildings to show market acceptance.

Comparable 1 is a most recent sale that does have a remodeled kitchen however the rest of the home appears original and not remodeled. This home does have a more elevated private view as adjusted for. Other adjustments as noted.

Comparable 2 is located on a private road as the subject is most similar in having a limited sight view and more bedrooms with 5 total. This comparable although newer in age does have a remodeled kitchen and otherwise appears original inside. Adjustments as noted for owned solar and being a smaller home.

Comparable 3 was sought after as it is a two story home that has a basement are that has potential as the subjects two outbuildings have. This comparable although an older sale was the most similar in GLA that could be found. Adjustments for having a superior elevated panoramic mountain view that is superior to the subjects. No adjustment for basement as it is unfinished and not enough market evidence was available to adjust with a lack of data on the subjects two outbuildings.
