<b>Comments Regarding Pricing Strategy</b>		
<p>The subject condition is assumed to be fair and in order to support after rehab value the Good condition comparable is used. In order to support the subject's GLA, it was necessary to use comparable that differed from the subject's condition, bed room count, full bath. The comparable properties garage and parking spaces have been verified through MLS photos and MLS data. Subject year built does not bracket with in the comparables. Review of the aerial map identified major roads. However, any of the external influences noted does not have any negative influence on its value or marketability. Comparable are exceeded Proximity and Major roads but has no impact on the subject's location and pricing. Price range was over 25% in difference due to the neighborhood area hard to find comparable that is similar to subject in condition and criteria. In delivering final valuation, most weight has been placed on CS3 and LC3 as they are most similar to subject condition and overall structure. In order to stay within the guidelines closer to the subject's attributes and within the miles, it was necessary to exceed the sold date beyond 3-6 months. It was necessary to exceed the proximity to the subject guideline upto 5.9 mile in an effort to use the best available comparable from within the subject's market area.</p>
