Comments Regarding Pricing Strategy		
<p>Subject details were taken from tax record. The subject property is sfr Town House, having 1098 sq. ft. and built in the year estimated as 1982. Subject is well maintained in Average condition. To maximize the accuracy of initial valuation, I have elected to increase the time span of closed sales up to 6-month window to find comparables that required the fewest net adjustment. Search distance extended up to 1 mile. Comparable with minor updates were taken, since most of the nearby comparable has minor updates and its condition confirmed with available MLS and pics. Unable to bracket lot within +/-20%, therefore lot limit extended beyond 30%. The values are based on the current market trend in this area. In this current market value provided are based on recent sales and listings in this area taking into account the current market trends and value variance. Bed count exceeded for comparable, since other attributes were similar to that of subject's criteria. Subject is located near to major roads, shopping center and reasonably near to waterbody, park, educational center and highway. The subject nearest location characteristics will not affect the subject's marketable value negatively. Garage count is conformed with available pics and MLS. In delivering final valuation, CS2 and LC3 are taken as the best comparable, since they are similar with subject's GLA, condition and view.</p>
