Comments Regarding Pricing Strategy		
Subject appears in average condition from the outside and it conforms well to the neighborhood. it is close to schools and commerce. Market is slow and this is due the low inventory that the high rates are causing. Due to this low inventory I was forced to expand my search one mile radius and use comps different in style and year built but they are still considered to be reliable comps		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The value variance is due to a 2.2% market increase over the last 3 months. The current report has included the most current and most proximate data available to support the price conclusion. The broker's comps are appropriate for the subject's attributes, surrounding amenities and market conditions. Thus, the price conclusion appears to be adequately supported.
