| Comments Regarding Pricing Strategy | | |
| <p>Subject's details taken from tax record. I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 3 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Since there were limited active comparable available within subject's market neighborhood, it was necessary to expand radius up to 3 mile. Property is sold in Zillow for \$140000 (12/1/2022), no mls. Limited comparables in the subject area make it necessary to use comparables with variance in age, 15% gla and bed count. It was necessary to use a comparable listing with a superior in condition due to limited market activity in the subject's area. Due to limited comps in the area, it was necessary to use comparable with DOM not within 90 -120 days. However the 90 day price opinion would not be affected due to differing from the average marketing time. The subject is located within a reasonable proximity to residential area, water body, other non-residential properties and main roads. Due to lack of comparable in the subject's same side it was necessary to exceed main roads. But the location feature not affects the marketability of the property. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition.</p> | | |
