Comments Regarding Pricing Strategy		
<p>Subject's details taken from tax record. I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 1 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Limited comparables in the subject area make it necessary to use comparables with variance in substyle, age, 15% gla, bed/bath count and 30% lot size. It was necessary to use a comparable listing with a superior in condition due to limited market activity in the subject's area. At the time of sale the sold comparable #1 property may have had multiple offers or a concession was given and not noted. The BPO report must take these sales into consideration in terms of comparable selection. The subject is located within a reasonable proximity to residential area, main roads and other non-residential properties. Due to lack of comparable in the subject's same side it was necessary to exceed highway. But the location feature not affects the marketability of the property. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition.</p>		

Clear Capital Quality Assurance Comments Addendum
