<b>Comments Regarding Pricing Strategy</b>		
<p>The subject property is overall in average condition and it conforms to the neighborhood. In order to support the subject's GLA, it was necessary to use comparable that differed from the subject's bed room count, pool. The comparable properties garage and parking spaces have been verified through MLS photos and MLS data. Subject year built does not bracket with in the comparables. Review of the aerial map identified major roads, commercial centers, school. However, any of the external influences noted does not have any negative influence on its value or marketability. Comparable are exceeded Proximity and Major roads but has no impact on the subject's location and pricing. In delivering final valuation, most weight has been placed on CS1 and LC1 as they are most similar to subject condition and overall structure. In order to stay within the guidelines closer to the subject's attributes and within the miles, it was necessary to exceed the sold date beyond 3-6 months. It was necessary to exceed the proximity to the subject guideline upto 2.5 mile in an effort to use the best available comparable from within the subject's market area.</p>
