Comments Regarding Pricing Strategy				

The subject is located near to highway and commercially active region, this will not have any impact on subject marketability as similar location comparable were used in this report. Within 1 mile there were limited comparable available supporting subject market conditions. Hence I was forced to use comparable exceeding in condition. Comparable (S1) received multiple offers which resulted in an increased final sale price relative to list price. In delivering final valuation, most weight has been placed on CS2 and LC2, as they are most similar to subject condition and overall structure. Subject attributes are from tax record attached.
