Comments Regarding Pricing Strategy		
<p>Subject details were taken from tax record .The subject is located in the Houston area as is a Townhouse . It was necessary to expand 1 mile to find comparables that support the subject's GLA and Location . The lot size tolerance for comparables had to be expanded in order to locate properties that supported the subject GLA and attributes. To locate comparables in close proximity to the subject, it was necessary to exceed the closed date over 3 months. Due to the lack of the sold comps, I was unable to use two comps having pending date within 120 days. The price range is over 25% and all sold comps are not within 15% from the subject's value due to a lack of similar comps. This variance could not be avoided and the comps were chosen for their similarities to the subject. To reach a value conclusion, most weight was placed on CS1 and LC2, as they are most similar to subject condition and overall structure. Even crossing highway sold comparable s1 supports the value and are of similar location. Subject is located on a busy street, highway and school and close in proximity to large buildings and mixed use area. The location feature will have no impact on the subject's marketability.</p>
