Comments Regarding Pricing Strategy		
<p>All comps are considered in the subject's same economic marketplace and suitable to utilize to arrive at an accurate value. Since there were limited comparables available within the subject's market neighborhood, it was necessary to use a sold comp with a sale date beyond 6 months from the date of this report. The age range, year built, bed count searched for comparable had to be expanded in order to locate similar properties that would support the subject's GLA and other property attributes. The difference in style due to the neighborhood area is hard to find comparable that is similar to the subject in condition and criteria. Due to limited comps in the area, list comp were used despite not bracketing the year built as they are still considered to be reliable comparable. Due to limited comps in the area, sold comp were used despite not bracketing the lot size as they are still considered to be reliable comparable. Due to limited comps in the area, comp were used despite not bracketing the bed count as they are still considered to be reliable comparable. There were no sold comparables found within 3 miles having similar lot size and bed count. Subject's final valuation, most weight has been placed on CS3 and LC1 as they are most similar to subject condition and overall structure characteristics. The value and marketability will not be affected with the subject being located near the main road and commercial area.</p>
