Comments Regarding Pricing Strategy					

Comments Regarding Pricing Strategy

There are limited comparable listings/sales in subject's direct market area. GLA variances were extended slightly to prevent extending proximity into excessively higher or lower median value neighborhoods. Even after relaxing typical variances over 30% it was still necessary to extend back over 6 months to locate at least 3 comparable sales from subjects tract. This is very important as subjects market area is surrounded by various micro-markets that can easily distort the median value. Within 1 mile of the subject a total of 3 comparable listings were located. Of these listings, all are fair market. Sales 2 and 3 were given the most consideration due to having the most combined similar value defining features. Typical market time for subjects direct market is under 90 DOM. Considerations for all value defining features and appreciation were taken while determining opinion value.
