#### **Comments Regarding Pricing Strategy**

Subject's Pricing: The subject's Sale Price has been bracketed within the range of comp values, with the most weight placed on Sale 2 as it is the most recent average condition sale comp that is similar in attributes. Similar comps within the subject's market area support a Sale Price for the subject which is higher than the subject's most recent sales price. The subject's most recent sales price appears to be below market value. Sale 1 Beyond 6 Months: Sale 1 was searched for beyond 6 Months time as there is a lack of similar average condition sold comps in the subject's market area with the same property type. The subject property is a Townhome with Condo Ownership, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of major repairs. Comps were searched for within a distance of 1 Mile and back 12 months in time. Sale 1 was searched for beyond 6 Months time as there is a lack of similar average condition sold comps in the subject's market area with the same property type. Sold Comps were searched for beyond 3 months time due to limited Condo Comps. The GLA Tolerance searched for similar comps was +/-20% of the subject's Sq. Ft. The subject is in average exterior condition and priority was given to locating comps which are in average condition. However, there is a shortage of similar comps, especially properties in average condition, and therefore it was necessary to use two superior condition comps within this report. Inventory is decreasing, and demand is stable within the subject's market area. REO/SS are less than 1% of recent sales and listings in this area. The subject property is located within 1000 Feet of Cinnabar Ave, which will not negatively impact the subject's marketability.
