Comments Regarding Pricing Strategy		
<p>The subject details are taken from tax records and in average marketable condition. Within 1 mile, +/- 30 % GLA and 6 months closing date, there was limited comparable which was similar to the subject in terms of condition, bed-bath, garage, lot size and hence the attributes had to be expanded beyond tolerance within a closing date of 12 months. The majority of the comparables in the immediate neighborhood with similar attributes had undergone various upgrades and hence properties with minor/ dated updates are considered average in overall condition. There were limited listed comparables within 1 miles that was similar to the subject in GLA, condition and hence the proximity had to be expanded up to 1.50 miles. The Property is located in proximity to major roads with Commercial establishments, schools, parks and other non- residential properties nearby. Comparable shares values defining qualities with the subject in regard to GLA, condition and other attributes, so the subject location characteristics don't affect its marketability. Since there were limited comparables that were similar to the subject attributes within the same side of the busy road, I was forced to select comparables crossing a major road and it will not affect the subject marketability. In delivering the final valuation, the most weight has been placed on CS2 and CL2 which are similar in GLA, condition and bed count. I have elected to increase the time span of closed sales past the favorable 3-month window to find comparable that required the fewest net adjustment. Comparables S1, S3 received multiple offers which resulted in an increased final sale price relative to list price.</p>
