Comments Regarding Pricing Strategy		
<p>The subject is a SFR 2 story, containing 2561sqft, 4bed/2.1bath, which was built in 2006. The subject is located near highway, retail stores, school, commercial area and river and will not affect the subject. It was necessary to use a comparable listing with superior in condition due to limited market activity in the subject's area. In order to include same street comparable, the sold comparable search was exceeded over 3 months up to 12 months time. The difference in bed count due to the neighborhood area is hard to find comparable that is similar to the subject bed count. It was necessary to use a comparable listing with a pool due to limited market activity in the subject's area. It was necessary to exceed the lot size variance guideline of 25% in an effort to use the best available comparable from within the subject's market area. Aggressive pricing is recommended in this market to attract strong buyer demand. A competitive price may attract multiple offers a final sales price higher than the list price. In delivering final valuation, most weight has been placed on CS1 and CL2 as they are most similar to subject condition and overall structure.</p>
