#### **Comments Regarding Pricing Strategy**

The sale and listing search was conducted based on fair market pricing in the subject area. style, closed date, bed/bath count and lot size parameters were expanded to keep comps in the neighborhood. Used sales over 3 months old due to the lack of more recent sales from the subject's immediate area. Price range was over 15%in difference due to the neighbourhood area hard to find comparable that is similar to subject in condition and criteria. Comparable (CS3) received multiple offers which resulted in an increased final sale price relative to list price. The value and marketability will not be affected with the subject being located near park, highway, main road, school and commercial buildings. Comparables used in this report are from same location and neighborhood. In delivering final valuation, most weight has been placed on CS2 and LC3, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record.
