#### Comments Regarding Pricing Strategy

Search was expanded to include the whole large semi-rural market area in order to find best comps & to try & bracket subject features. Every effort made to find/use comps with as close proximity as possible. In this case search was expanded up to 2 miles to find best comps. Currently there area no available comps that have extra small outbuilding. The market is still very strong for properties in this value range so the sales currently outnumber the active listings by about 3 to 1, which does give subject very strong marketability. It should be noted that rehabbed properties are still selling at the very top of the market.
