Comments Regarding Pricing Strategy		
<p>The subject should be sold in as-is condition. Value best supported by sold comp 2 and list comp 3, being the most comparable to the subject. Due to the lack of more suitable comparisons, it was necessary to exceed over 2 miles and over 6 months from inspection date, guidelines for gla, lot size, age and some recommended guidelines when choosing comparable properties. All the necessary adjustments are made. Proximity to the highway would not affect subject's marketability and both sides of the highway are similar market areas. Commercial presence for the subject would not affect the subject's condition or marketability. Subject appears to be currently occupied verified from the tax record. Subject is currently listed as a shortsale, but subject located in strong FMV market. So I have used FMV comps in this report. So the value I estimated would be the best value for the subject. There is lack of similar comps available within a mile so it was necessary to extend the search for comps. There is lack of similar GLA comps available within a mile so the comps chosen were the best available and closest to the similar size as the subject. Estimated market rent: \$2,511.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The value variance is due to the current report pricing the subject in line with sales in the subjects immediate neighborhood while the prior report placed the most emphasis on a comparable outside the subjects neighborhood. The current report has included the most current and most proximate data available to support the price conclusion. The broker's comps are appropriate for the subject's attributes, surrounding amenities and market conditions. Thus, the price conclusion appears to be adequately supported.
