<b>Comments Regarding Pricing Strategy</b>		
<p>The recommended value of the subject property is based on the adjusted values of the sold comps, with the most weight given to sold comp 1 because it is the most similar to the subject. The subject property is located in a gated community that was not accessible at the time of inspection. It was necessary to use photos of the gate, community sign and street outside the gate for property photos. The subject was determined to be in the community by the tax record and aerial photos. Per tax record, the subject property is a condo with a lot size. The listed and sold comps are also condo with a lot size. Due to a shortage of listed comps, it was necessary to expand the criteria regarding distance and square footage and use list comp 3, which is more than 20% larger than the subject and is located more than one mile from the subject.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
