Comments Regarding Pricing Strategy		
<p>I have searched a distance up to 0.5 mile GLA +/-20% similar lot size up to 3 months back. There were limited comparables available. Therefore I had to exceed guideline parameters and search up to 1.6 miles, and back 12 Months. Since there were limited comparables available within subject's market neighborhood, it was necessary to use a sold comparable with a sale date beyond 90 days from the date of this report. The difference in bed count due to the neighborhood area is hard to find comparable that is similar to the subject bed count. Since there were limited comparables available within the subject's market neighborhood, it was necessary to expand the market research beyond 10 years of subject year built. It was necessary to exceed the GLA variance guideline of 25% in an effort to use the best available comps from within the subject's market area. Comparable (CS3) received multiple offers which resulted in an increased final sale price relative to list price. In order to bracket the subject's GLA and condition, a search for comps was broadened to include wider price range above 20%. The subject is located near the park, busy road, commercial. However, there is no change in subject value and marketability. In delivering final valuation, the most weight has been placed on CS2 and LC1 as they are most similar to subject condition, and overall structure. Subject attributes are from Tax record.</p>		

Clear Capital Quality Assurance Comments Addendum
