<b>Comments Regarding Pricing Strategy</b>		
<p>The subject details are taken from Tax. The subject property is a single-family home with 2253 square feet was built in 1978 , containing 3 bedrooms and 2.0 bathrooms. Proximity parameters were exceeded up to 1 mile as there were limited comparable within 0.5 miles having GLA +/- 20%, year built +/- 30, and 6 months back. The lot size tolerances for comparable had to be extended in order to locate properties that were supportive of the subject GLA and attributes. Within 1 mile having GLA +/- 20%, year built +/- 30, there were no comps available with pool, so It was necessary to use comparable without pool. Since there were limited comparable that were similar to the subject attributes within the same side of the busy road, I was forced to select comparable crossing a major roads, it will not affect the subject marketability. The Property is located in proximity to major roads, highways along with Commercial establishments, schools , Park and other non- residential properties nearby. Comparable shares values defining qualities with the subject in regard to GLA, condition and other attributes, so the subject location characteristics don't affect its marketability. Comparable property condition was identified using both MLS comments and interior pictures. In delivering final valuation, most weight has been placed on CS2 and CL2 as they are most similar to condition. No clear subject pictures available since the subject is behind lot of bushes.</p>
