Comments Regarding Pricing Strategy		
<p>Subject's Pricing: The subject's Sale Price in this report is slightly higher than the most recent sales price for the subject property. Sale 1 received the most weight on the subject's Price as it is located within the subject's subdivision, and is a model match to the subject property. The subject property is a Townhome, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of repairs. Similar comps were searched for within a distance of 1 Mile and back up to 12 months in time. Comps were searched for beyond roadway boundaries, but within similar and competing areas. Sold comps have been searched for beyond 3 months time as there were limited recent similar sales in this area. The GLA Tolerance searched for similar comps was +/- 20% of the subject's Sq. Ft. The subject is in average exterior condition and there is a shortage of similar average condition comps. As such, it was necessary to use two superior condition comps within this report. Inventory is decreasing, and demand is stable within the subject's market area. REO/SS are less than 1% of recent sales and listings in this area.</p>
