Comments Regarding Pricing Strategy		
<p>Subject is currently listed, it is priced below market value, note the pending status after only 5 days, the listing price is not indicative of market value. Property value of the subject was assessed based upon the values of comparable properties in the area, as well as their condition, and comparison to the subject. Subject's lot size varies over 10% of comparables, the age difference in some comparables are over 5 years and distance of some comparables are over 1 mile from subject in terms of driving distance, this is due to the property type, size and location, I had to extend search criteria to obtain sales and listings comparable to subject. The comparables used are still suitable comparables to subject property and market value is not affected. Used comparables over 120 days, although they vary in the sale date from inspection date, they are still considered reliable to subject property.</p>		

Clear Capital Quality Assurance Comments Addendum
