Comments Regarding Pricing Strategy

The subject details are taken from Tax. The subject property is a single-family home with 2070 square feet was built in 1998, containing 4 bedrooms and 2.0 bathrooms. Proximity parameters were exceeded up to 1 mile as there were limited comparable within 0.5 miles having GLA +/- 30%, year built +/- 30, and 6 months back. In order to stay within the guidelines closer to the subject's attributes and within the miles, it was necessary to exceed the sold date beyond 3-6 months. The lot size tolerances for comparable had to be extended in order to locate properties that were supportive of the subject GLA and attributes. Within 1 mile having +/-30% GLA, +/-30 Year built, there were limited comparable available so it was necessary to exceed bed/bath count. Since there were limited comparable that were similar to the subject attributes within the same side of the busy road, I was forced to select comparable crossing a major roads, it will not affect the subject marketability. The Property is located in proximity to major roads, highways along with Commercial establishments, schools and other non- residential properties nearby. Comparable shares values defining qualities with the subject in regard to GLA, condition and other attributes, so the subject location characteristics don't affect its marketability. Comparable property condition was identified using both MLS comments and interior pictures. In delivering final valuation, most weight has been placed on CS1 and CL1 as they are most similar to condition.
