Exterior-Only Inspection Residential Appraisal Report

55510
File # 2311-05

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). **CONCESSIONS HAVE BEEN MINIMAL IN THE PAST YEAR & HAVE NOT CHANGED MUCH. BUYERS WANT A LOWER PRICE RATHER THAN ANY CONCESSIONS. CONCESSIONS ARE MORE PREVALENT IN THE LOWER PRICE RANGES.**

Are foreclosure sales (REO sales) a factor in the market? Yes No If yes, explain (including the trends in listings and sales of foreclosed properties).

FORECLOSURE & REO SALES ARE NOT A FACTOR IN THE MARKET AT THIS TIME. BUT THE NUMBER OF DEFAULTS HAS BEEN INCREASING IN THE LAST FEW MONTHS WITH THE INCREASING INTEREST RATES

Cite data sources for above information. **CRMLS-CLAW**

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

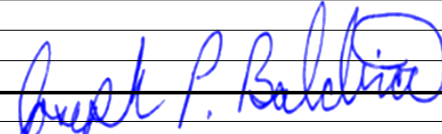

THE OVERALL TRENDS REPORTED ON THE INVENTORY ANALYSIS GRID & AVERAGE SALE & LIST PRICE DOM & LIST SALE RATIO GRIDS INDICATE A STABLE TREND IN THE PAST 12 MONTHS FOR PROPERTIES IN THE NEIGHBORHOOD THAT ARE COMPARABLE TO THE SUBJECT PROPERTY. HOWEVER THIS IS NOT CONCLUSIVE EVIDENCE THAT ALL OTHER PROPERTIES IN THE NEIGHBORHOOD ARE MIRRORING THE TREND OF PROPERTY THAT IS COMPARABLE TO THE SUBJECT THERE ARE TOO FEW SALES TO DETERMINE A DEFINITE VALUE TREND

If the subject is a unit in a condominium or cooperative project, complete the following: Project Name:

Are foreclosure sales (REO sales) a factor in the project? Yes No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

THIS IS AN APPRAISAL REPORT NOT A SUMMARY REPORT AS STATED ON THE PREPROGRAMMED APPRAISAL FORM

• Exterior-Only : Neighborhood - Description

The subject is located in a mature stable area. It is in good proximity to many diversified financial, industrial, service & movie industry centers. Neighborhood shows average to good maintenance. The subject is located close to major traffic arteries on OBAMA & LA BREA. The subject is located within 20 minutes from major retail, entertainment and employment opportunities in Culver City, West Hollywood and Century City. The subject is 30 minutes from downtown Los Angeles.

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

THE APPRAISER ADJUSTED FOR DISSIMILARITIES BETWEEN THE SUBJECT & COMPARABLES ACCORDING TO THE MARKET REACTION. THEREFORE DISSIMILARITIES THAT HAVE A 0 INDICATED IN THE ADJUSTMENT COLUMN MEANS THE APPRAISER HAS ACKNOWLEDGED THE DIFFERENCE, HOWEVER THE MARKET DOES NOT SUPPORT ANY ADJUSTMENT

EXPOSURE TIME FOR THE SUBJECT IS 1 TO 3 MONTHS. EXPOSURE TIME IS THE LENGTH OF TIME THE PROPERTY INTEREST BEING APPRAISED WOULD HAVE BEEN OFFERED ON THE MARKET PRIOR TO THE HYPOTHETICAL CONSUMMATION OF A SALE AT THE VALUE ON THE EFFECTIVE DATE OF THE APPRAISAL. IT IS A RETROSPECTIVE ANALYSIS BASED ON AN ANALYSIS OF PAST EVENTS ASSUMING A COMPETITIVE & OPEN MARKET. EXPOSURE TIME IS ALWAYS PRESUMED TO OCCUR PRIOR TO EFFECTIVE DATE OF THE APPRAISAL.

NO EMPLOYEE, DIRECTOR, OFFICE OR AGENT OF THE LENDER, OR ANY OTHER THIRD PARTY ACTING AS A JOINT VENTURE PARTNER, INDEPENDENT CONTRACTOR, APPRAISAL MANAGEMENT COMPANY, OR PARTNER ON BEHALF OF THE LENDER, SHALL INFLUENCE OR ATTEMPT TO INFLUENCE THE DEVELOPMENT, REPORTING RESULT OR REVIEW OF AN APPRAISAL THROUGH COERCION, EXTORTION, COLLUSION, COMPENSATION, INSTRUCTION, INDUCEMENT, INTIMIDATION, BRIBERY OR IN ANY OTHER MANNER.

I HAVE NOT BEEN CONTACTED BY ANYONE OTHER THAN THE INTENDED USER (LENDER/CLIENT AS IDENTIFIED ON THE FIRST PAGE OF THE REPORT), BORROWER, OR DESIGNATED CONTACT TO MAKE AN APPOINTMENT TO ENTER THE PROPERTY. I AGREE TO IMMEDIATELY REPORT ANY UNAUTHORIZED CONTACTS EITHER PERSONALLY BY PHONE OR ELECTRONICALLY TO CLEAR CAPITAL

THE APPRAISER'S OFFICE IS WITHIN 25 MILES OF THE SUBJECT PROPERTY. IN THE PAST 5 YEARS I HAVE COMPLETED 10 TO 15 APPRAISALS A YEAR IN THIS AREA. I HAVE ACCESS TO CLAW MLS & CRMLS THE 2 DOMINANT MLS SERVICES IN THE AREA. I LIVE IN THE SUBJECT COUNTY & HAVE PERFORMED APPRAISALS IN THE AREA FOR OVER 45 YEARS.

Use of the appraisal by any party stipulates to an agency relationship between that party and the appraiser whether through intermediaries or not; further that any party charging the borrower or collecting appraisal fees from the borrower(s) for the appraisal hereby agrees that they are responsible for insuring full payment is made to the appraiser for the appraisal

THE APPRAISER HAS ATTEMPTED TO MEET LENDER GUIDELINES FOR ADJUSTED RANGE OF COMP VALUE OF LESS THAN 20% OF THE FINAL VALUE OF THE SUBJECT. DUE TO THE LACK OF SUITABLE COMPS CAUSED BY THE SLOWING REAL ESTATE MARKET THE OVERALL RANGE OF ADJUSTED COMPS IS WIDER THAN DESIRED. THE SEARCH AREA WAS WIDENED TO 3 MILES & GONE BACK 18 MONTHS TO FIND SUITABLE SALES WITHIN THE GUIDELINES BUT WAS UNABLE TO DO SO. WE HAVE PROVIDED THE BEST COMPS AVAILABLE FOR THIS SUBJECT MAKING THE RANGE OF VALUE UNAVOIDABLE

HIGHEST & BEST USE WAS DETERMINED AS IMPROVED BASED ON ITS CURRENT USE BEING LEGALLY PERMISSIBLE. PHYSICALLY POSSIBLE FINANCIALLY FEASIBLE & MOST PROFITABLE

ALL SALES ARE WITHIN THE NEIGHBORHOOD BOUNDARIES SOME SALES ARE FOUND ACROSS MAJOR ROADWAYS & THEY ARE STILL CONSIDERED IN THE SAME AREA OR COMPETING AREA. ACROSS ADAMS IS STILL A SIMILAR AREA. RELATIONSHIP TO PREDOMINANT VALUE HAS NO RELATION TO MARKETABILITY. THE MOST IMPORTANT FACTOR IS THE CONDITION & THEN SIZE OF THE PROPERTY NO MATTER HOW DIFFERENT IT IS FROM THE PREDOMINANT.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
