#### **Comments Regarding Pricing Strategy**

Subject details were taken from tax record. The subject property is Ranch, having 2040 sqft and built year 1993. Subject is in Average condition. To maximize the accuracy of initial valuation, I have elected to increase the time span of closed sales exceeded up to 12months window to find comparable that required the fewest net adjustment. Comparable condition confirmed with available MLS and pics. Search distance up to 2 miles, for getting similar comps which bracket proper price range. The values are based on the current market trend in this limited area. In this current market value provided are based on recent sales and listings in this area taking into account the current market trends and value variance. Unable to bracket lot size within +/-20%, therefore, lot limit extended beyond +/-30%. Subject has unique bed/bath count within closer proximity, therefore, It was necessary to use a comparable listing with difference in bed /bath count, with a pool, due to limited comparable availability in the subject's area. Subject is located near to major road, and reasonably near to educational center. The subject nearest location characteristics will not affect the subject's marketable value negatively. Since there were limited comparable that were similar to the subject attributes within the same side of the busy road, I was forced to select comparable crossing a major road and it will not affect the subject marketability. Garage count is conformed with available pics and MLS. In delivering final valuation, CS3 and LC1 are taken as the best comparable, since they are similar with subject's GLA, condition and view.
