Comments Regarding Pricing Strategy		
<p>The local real estate market has been flourishing as a Seller's Market, and values have been increasing in most areas. Covid-19 has not affected the local real estate market which continues to be a Seller's market with increasing values and lack of inventory. Market time has been decreasing for most properties if priced competitively, and many are obtaining multiple offers soon after coming on the market. There are many buyers available both as owner occupants and Investors. Inventory has been low and demand has been high with most properties selling over asking price. Market time is usually under 30 days. All of the sales and listings utilized in this report are the closest most recent comparable properties that could be found and verified in the subject's own subdivision and surrounding areas. These properties are deemed to be the most comparable properties in terms of location, condition, and physical characteristics. After making the necessary adjustments, all sales were concluded to provide a reliable indication of value for the subject property and were included in the final analysis.</p>
