<b>Sales Price</b>	\$365,000	\$365,000

<b>Comments Regarding Pricing Strategy</b>		
<p>While market values have increased in the past 12 months, the current market is stable with supply decreasing and demand increasing. Values are impacted by the presence of investor flip properties in updated condition. Typical seller concessions include a seller contribution of approximately 3 percent of the sale price toward the buyer's closing costs. REO and short sale transactions are nominal. The sold/list comp search provided insufficient comps within the required search parameters. Therefore, the search was expanded for Proximity to 5 miles; Year Built to 20 years; Sq Ft to 20 percent; Lot Size; Days on Market; Sale Date to past 24 months; Pending Listings; Flip Properties in updated condition. The distance to comparable sales and listings was necessary due to the limited number of similar comps within the immediate area. Comparables were selected not necessarily for proximity but for the overall comparability to the subject. Comp Sale #2 shows the best support for my value conclusion. Overall it has the most comparable characteristics. Listing #1 represents an active similar condition comp. The Subject would compete well with this listing. Using Sale #2 and List #1 as my best comps, I concluded the Subject value as indicated. Features and Aspects considered for adjustments were yr built, sq ft, room count, lot size, and garage, solar, pool. Adjustments were made accordingly. Other than indicated, Comps are equal to Subject in Features and Aspects.</p>
