Comments Regarding Pricing Strategy		
<p>The neighborhood has a shortage of homes on the market as there are more homes which have sold than listed in the past 6 months. Naturally, this shortage has enabled prices to rise and this trend is expected to continue over the next 6 months. The subject was strategically priced mid-market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was necessary to utilize comps with the following variances in GLA, Year built and lot size. All comparables on Sales and Listings was based on the Property general characteristics and Comps used are the best available within market area, which are based on the following criteria, o on Style, Lot size, GLA, sale date , proximity, and condition of the subject property and believes to be comparable to subject property. Comps selected for this report are all settled properties within the subject's market area. They are considered to be the best available at the time of the inspection & good indicators of market value. S1 and L1 were given the most weight as they both share the most similar characteristics to the subject. Home was priced at mid-value since there are no extraordinary characteristics that would value the subject lower or higher. The properties used are the best possible currently available comps within 1 miles. The adjustments are sufficient for this area to account for the differences in the comparables to accurately reflect the current market value of the subject. The market rent values as of today is \$2,223</p>		

Clear Capital Quality Assurance Comments Addendum
