<b>Comments Regarding Pricing Strategy</b>		
<p>This is an opinion of value or comparative market analysis and should not be considered an appraisal. The average market time in the subject's properties market area is 90 days. Our pricing suggestion came about from analyzing the most current comps which are located as close to subject as possible and are as close as feasible in square footage, rooms, style and acreage with subject property. This value suggestions was derive though analysis of most recent market information. We also took into account current buyer behavior in this stagnant, and unpredictable real estate market. Our market knowledge was also used in estimating subject value.</p>
