<b>Sales Price</b>	\$565,000	\$565,000

<b>Comments Regarding Pricing Strategy</b>		
<p>In the selection of comparable data for the subject comps in the same complex/building are best indicators of value due to the variance in values for each building, dependent on facilities, quality, appeal etc. However, there has not been any sales of any competing 1BR/1BA units in the last year; last sale of competing unit in subject building was 9/28/2022 for \$505,000. There are no current listings in the subject building. Available inventory remains limited and interest rates very low; these factors are driving and sustaining demand. The market is sale driven, and the sold comps are used to establish the subject value; sold comps were considered up to 1 year back due to proximity concerns (the market has not been rapidly changing but steadily appreciating in that time). The subject seems similar to all the sold comps in the report in combined characteristics. Therefore, the subject's final projected value is bracketed based on the overall adjusted sold data. Note 1; quick sale is interpreted to mean all cash sale, it is not known what incentive would be required for a cash sale; for the subject's price bracket 5 % approx is suggested, but is an estimate only, financed offers might be generated within 30 days without any incentive, based on overall market activity.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect  
**Notes** the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
