Exterior-Only Inspection Residential Appraisal Report

File No. 34973158
Internal File# 4964Mariposa_SanBernardino

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Exterior-Only Inspection Residential Appraisal Report

File No. 34973158
Internal File# 4964Mariposa_SanBernardino

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Exterior-Only Inspection Residential Appraisal Report Internal File No. 34973158 4964Mariposa_SanBernardino

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Discrepancies / Alterations

County Records show subject's GLA to be 2,299 Sqft with 4 bedrooms and 3 baths. The information was obtained from tax records. Due the being an exterior analysis only of the subject property, the data obtained from tax records will be used for the property characteristics of the subject property.

Subjects HOA Information

Based on review of tax records and the CRMLS, it appears there are no monthly HOA dues and the subject property is not located within a PUD

Subject Description

The subject is a detached, single family residence of average quality construction and overall average condition throughout. The subject is located in the City of San Bernardino, CA. The subject shows an average level of physical depreciation for its age and appears to have been adequately to well maintained.

Please note, the appraisal was completed on the form (2055) and is based on the exterior analysis of the subject property only. Information with regards to the subject property were obtained from tax records and from the exterior analysis only. Due to being an exterior analysis only, the subject property is being valued as being in average condition.

Subject'a Purchase Information

TBased on review of the CRMLS, the subject property was listed for sale on 09/24/2023 with an original list price of \$569,000 and was reduced to \$539,000 on 10/07/2023. The subject property was listed for sale as a probate listing and probate listings are generally listed below market value for a quicker sale. The subject property was on the market for 47 days before it was sold based on the CRMLS. The subject property sold on 01/09/2024.

Verification of the sale could not be verified within tax records as its a recent sale (within 3 days from the effective date of the appraisal) and the real estate agent did not return the appraisers call within a timely manner to verify the sale. (CRMLS#PW23178393)

Due to the appraisal being ordered as a 2055 exterior analysis and for asset valuation. The purchase price was not submitted for review nor provided to the appraiser.

Subject: Site Information

The subject site is a predominant level, interior lot and is located on a quiet residential street. The size, shape, landscaping,& topography of the subject's site are typical of other sites in the subject's surrounding neighborhood. There were no adverse encroachments, easements, or slide areas affecting the subjects marketability. The subject is located in close proximity to most consumer, employment and recreational needs.

Subject: Neighborhood Description

The subject's neighborhood is composed primarily of older and some newer, average to good quality, detached single family residences with some attached and detached condominiums, as well as some multi family dwellings. No new construction was noted in the subjects neighborhood at the time of inspection. Most homes in the area are adequately to well maintained. Many properties in the area have undergone some degree of remodeling and/or additions.

Positive/Negative Time Adjustments

No positive/negative time adjustments are applied to the comparable sales used within the appraisal report. This is based on the data obtained from the market conditions addendum (1004MC) as well as websites such as RedFin.com and Zillow.com and is supported by the appraisers use of paired sales analysis and review of relevant listings/ pendings in the subjects neighborhood.

Comments on the Sales Comparison Approach

Elite Appraisal Service COMMENT ADDENDUM

File No. 34973158

Internal File# 4964Mariposa_SanBernardino

Borrower Catamount Properties 2018 LLC

Property Address 4964 Mariposa Dr						
City San Bernardino	County	San Bernardino	State	CA	Zip Code	92404-1433
Lender/Client Wedgewood Inc.	,	Address 2015 Man	hattan Beach Blvd, S	uite #100, Redondo I	Beach, CA 90278	

All comparables included are located in the subjects general and immediate neighborhood and are considered similar in age, design appeal, and quality.

Please note, some comparables used are located slightly over a mile from the subject property. These comparables are located within a similar neighborhood with similar utility use and therefore required no location adjustment.

Comparables #2, #3, #5, and #7 were adjusted for their superior condition based on the upgrades/remodeling completed per review of the MLS and the appraisers observations.

Comparable #2 has a different bed and bath count listed within the CRMLS. The bed and bath count used in this appraisal report was based on tax records as the CRMLS states there has been some bedrooms that can be used as an ADU and it appears to have been slightly altered.

Comparable #4 contains solar panels and based on review of the MLS, the solar panels are owned.

Comparable #7 contains solar panels and based on review of the MLS, the solar panels are leased.

Comparable #8 is an active listing and was included to support the estimate of market value. Comparable #8 was adjusted for its superior condition based on the upgrades/remodeling completed per review of the MLS and the appraisers observations.

The closed sales indicate a reconciled value range for the subject of \$564,700-\$651,350. A final value estimate of **\$610,000** is deemed to be most appropriate for the subject, based on overall condition and other characteristics. All sales are considered good indicators of value however comparable #1 required the least amount of gross adjustments and with most weight given to comparables #1, #2, #3, and #4 as they are the most recent

The sales included in this report bracket all major characteristics of the subject. All sales were selected and weighted based on their varying similarities to the subject property and adjusted for differences where applicable. The sale price and adjusted sale price of the comparable sales utilized bracket the final estimate of market value derived in this report and is well supported.

Adjustments were made for differences in gross livable area of 100 sqft or more at \$55 per square foot, lot size difference of 1,000 sqft or more at \$1.00 per square foot, bathroom count differences at \$8,000 per full bathroom, and age difference of 31 years at \$1,000 per year if applicable within the market approach to value. Value given for additional property improvements: Pool: \$15,000; Spa: \$5,000; 1 Car Garage: \$3,000; Solar Panels (owned): \$10,000; if applicable.

Please note, adjustments to the comparable sales were based off the data obtained by the appraisers use of paired sales analysis and review of relevant listings/ pendings in the subjects neighborhood.

Condition ratings of the comparables were based on field observations and information supplied by the data sources reviewed; Realist, MLS; adjustments for condition ratings where applicable, are based on effective ages of each property and the degree of improvements and/or refurbishing and upon the appraisers knowledge of the local market as well as discussions with local area real estate agents.

Final Reconciliation

The Sales Comparison Approach was given the most weight in determining the final value estimate, as it best represents the actions of typical buyers and sellers in the market. The Income Approach was not considered applicable because SFR's within the subject's market area are typically purchased by owner/users and not for income generation.
