Comments Regarding Pricing S	trategy	

Due to location of subject property, year built, house square footage, bedrooms, bathrooms and lot size all comps considered are within 1 mile of subject property, year built to 10 +/- years, house square footage expanded to 25% +/- sq. ft. and sold comps back 12 months. Markets in this area have been fairly stable over the last 12 months; however, as interest rates have increased new properties coming on the market has leveled off. Currently markets are still fairly active with generally those properties that are priced right when they are first put on the market generally selling fairly quickly.
