Listing Comments Why the comparable listing is superior or inferior to the subject.

- Listing 1** Both condition and overall quality of construction seem average for the area and comparable to the subject, but the market is sale driven, sold comps are the focus in establishing value. Under contract/pending sale without reductions and within overall area marketing times (90 days or less is deemed adequate to generate accepted offer for subject's area and price range, or price reduction probably needed).
- Listing 2** Condition seems average and comparable to the subject, overall quality of construction seems average and comparable to the subject.
- Listing 3** Condition seems average with periodic updates (good condition reserved for new construction as most in the subject price range and area have been periodically updated or previously remodeled). Under contract/pending sale without reductions and within overall area marketing times. Remains available with multiple reductions, marketing time becoming extended, price reduction probably needed to generate offers.

Comments Regarding Pricing Strategy		
<p>Available inventory remains limited and interest rates remain relatively low despite recent increases; these factors are driving and sustaining demand. The market is sale driven, and the sold comps are used to establish the subject value; sold comps were considered up to 1 year back due to proximity concerns (the market has not been rapidly changing but gradually appreciating in the last year; however, appreciation is now slowing due to interest rate increases, inflationary pressures and severe lack of inventory and affordability for average end-user buyers). The subject seems similar to all the sold comps in the report in combined characteristics. Therefore, for the purposes of the report each comp is weighted equally and the subject's final projected value is bracketed midway based on the overall adjusted sold data. Note 1; quick sale is interpreted to mean all cash sale, it is not known what incentive would be required for a cash sale; for the subject's price bracket 5 % approx is suggested, but is an estimate only, financed offers might be generated within 30 days without any incentive, based on overall market activity.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

Instructions last updated: 07/29/2024

Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

Comparable Requirements:

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

Property Condition Definitions:

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
