Comments Regarding Pricing Strategy		
<p>The subject details were taken from the tax record. All comps are considered in the subject's same economic marketplace and suitable to utilize to arrive at an accurate value. Proximity parameters were surpassed and search was extended up to 1.7 miles as there were limited comparable inside 1 mile having GLA +/- 20%, year built +/- 10 and 6 months back. Since there were limited comparable available within subject's market neighborhood, it was necessary to exceed lot size, pool, style, and bed/bath count. Subject year built is unique. Within 1.5 miles, +/-20% GLA, +/-10 year built and 6 months back, there were no similar comps available. Therefore year built was not bracketed in sold and active comps. However, CS2 and LC2 held the most weight in the final analysis. Property values and appeal are not affected by the location to the roadways, school and commercial.</p>
