<b>Comments Regarding Pricing Strategy</b>		
<p>Comps were selected that best support the subject's immediate market, location and subject features. Thresholds were set based on square footage, quality of construction, age, amenities and features, school district, and proximity. The most weight was given to the comps that were most similar to the subject when all features were considered. We feel our selected comps best represent the current value of the subject property out of available comps within the set thresholds. Due to a dearth in comps in the area it may be necessary to expand search parameters. I always attempt to locate comps within one mile but this may not always be possible. I am not always able to locate comps with exact room count that are similar enough in all ways. I have used the most appropriate comps available. Due to lack of comps within close to locations, Had to expand search by location in order to find comparable to subject property.</p>

## Addendum: Report Purpose - cont.

**Report Instructions**

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report.

Instructions last updated: 07/29/2024

**Purpose:**

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

**Comparable Requirements:**

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

**Property Condition Definitions:**

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
