Subject community is an fairly older but well established neighborhood in Dallas. It has easy access to city major roads. There are some shopping centers, Restaurants, Schools, and other businesses close to subject's community. There were 6 active listings and 2 sold comps within one mile from subject. Some have been used in this report. It was necessary to exceed client requirements of distance, age, room count, sq ft, and time because within 1 mile and 3 months there were 2 active comparables and 2 sold comparables that have similar sq ft, age, room count, style as subject. I had to extend my distance up to 5 miles in order to find comparable comps that bracket the subjects sqft. I used the best available comps in my professional opinion.

Comments Regarding Pricing Strategy				

Subject list price is determined based on the sales and room count, style, age, and sq ft. It was difficult to find better comps for this report in same community because of subject's sq ft. The preparer of this report extended search outside of subject's community to find sold comps with similar sqft and room count as subject. Comps used here are the best available.

### Report Instructions

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report. Instructions last updated: 07/29/2024

### Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area. Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

- 1. Use comps from the same neighborhood, block or subdivision.
- 2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
- 3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis. Property Condition Definitions:
- 1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
- 2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
- 3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
- 4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
- 5. Excellent: Newer construction (1-5 years) or high end luxury
