<b>Comments Regarding Pricing Strategy</b>		
<p>There were absolutely no modular active comps. The subject's current value is based on sales and listings available at this time. Subject is unique in property type and smaller in GLA in comparison to homes within the area and are supported at a lower value. Suggested value is based on adjusted comps. There were no newer comps to replace S1 &amp; S3. Agent has used the best available comparable(s) with respect to relative distance, size, age and property type, suggesting they are good measures of value for the subject. Further research to find similarly sized properties that could tighten the value returned no properties, suggesting agent has used the best available. The comparable(s) appear to be reasonable substitutes for the subject, providing adequate support for the suggested list and sale prices. Subject sale price has been bracketed within the sold comps. Due to a shortage of inventory, limited similar comps were available at time of inspection. Therefore, expansion of all data was needed to locate comps and determine value. Adjustments have been made accordingly.</p>
