Comments Regarding Pricing Strategy		
<p>Provided comps were selected within 1 mile radius and interval of 6 months, no additional filters were applied during market analysis. Present information is supported by MLS, taxes, county records and third party sources. Provided comps are similar design, represents fair market value and are located within boundaries of the similar market area and school district. Subject is somewhat similar to the neighborhood area. In order to complete the report I was constrained to exceed age, GLA, lot size and overall condition variances. All necessary price adjustments were made. In overall, all selected comparables are best representatives of the current value of the subject that market can offer at the moment. As per tax records, the subject was sold within past 12 months. Sale date: 03/12/2024; sale price: \$1,001,000. As per similar buildings found in the area, subject last sale price is well below market price. There is no similar comps within such price range. Subject overall condition was assumed as average. Original condition is unknown.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
The current report is showing a large variance in as-is conclusions with the most current duplicate. The large variance appears to be due to comp proximity. The current report provides more proximate comps that better support the subject's as-is conclusion.
