Comments Regarding Pricing Strategy		
<p>Search was expanded to include this whole large semi-rural market area in order to find best comps & to try & bracket subject features. Every effort made to find/use comps with as close proximity as possible. In this case search was expanded up to 1 mile to find best comps. The active comps support a higher value than the sold comps, 2 of the active comps are currently in escrow. Properties in this value range are still in very high demand. Many sales do involve seller paid concessions, usually for interest rate buy down & this is something that should be expected currently with any offer. Rehabbed properties are still selling at the top of the market.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
