Michael Yaklin File No. 35221581RedwoodHoldingsLLC Case No. Exterior-Only Inspection Residential Appraisal Report HIGHEST AND BEST USE ANALYSIS: THE EXISTING USE SUPPORTS THE FOUR FUNCTIONS OF HIGHEST AND BEST USE BOTH AS VACANT AND AS IMPROVED. THE CURRENT USE IS PHYSICALLY POSSIBLE, LEGALLY PERMISSIBLE, FINANCIALLY FEASIBLE AND IS THE MOST PRODUCTIVE USE OF THE SITE ABSTRACTION METHOD USED, VALUE OF PROPERTY INDICATED BY ESTIMATING REPRODUCTION OF NEW IMPROVEMENTS MINUS THE DEPRECIATION PLUS SITE VALUE. Due to this area being completely developed, the abstraction method was used for estimating land value, as actual land sales are not available. This is considered typical for this type of property. The figures below are estimated figures based on analysis of the Marshall & Swift Cost Handbook and some conversation with local builders. I, the appraiser am not a licensed contractor and reserve the right to revise this section of the report if some figures are proven to be inaccurate. The cost approach data are strictly used for this appraisal and not to be used for home insurance or any other purposes A fee of \$220 was charged in order to undertake this appraisal assignment. I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved. My compensation is not contingent on an action or event resulting from the analysis, opinion or conclusions in, or the use of, this review report. My analysis, opinions and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice No employee, director, officer or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisa management company, or partner in behalf of the lender has influenced or attempted to influence the development, reporting, result or review of this assignment through coercion extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower or designated contact to make an appointment to enter the property. I agree to immediately report any unauthorized contacts either personally by phone or electronically to vendor management. AMC Registration # for ClearCapital.com, Inc: 1256 COST APPROACH TO VALUE (not required by Fannie Mae.) Provide adequate information for the lender/client to replicate your cost figures and calculations. Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) Information used to determine the cost approach value is based on local builders and insurance companies estimates of rebuild costs. The cost approach was completed below for the lender only and is not a valid method of value in the California market area. Land-to-value ratio is common and typical in the subjects market. Ratio has no impact on marketability and value. ESTIMATED REPRODUCTION OR X REPLACEMENT COST NEW OPINION OF SITE VALUE 1,340,000 Source of cost data Local Builders Dwelling 2,046 Sq. Ft. @ \$ 423.00 865,458 =\$ Quality rating from cost service Average Effective date of cost data 03/01/2024 Bsmt =\$ Sq. Exterior-Only Inspection Residential Appraisal Report

File No. 35221581

35221581RedwoodHoldingsLLC

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Exterior-Only Inspection Residential Appraisal Report

File No. 35221581RedwoodHoldingsLLC

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Exterior-Only Inspection Residential Appraisal Report Case No.

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Property Address 2861 Ransford	Ave					
City Pacific Grove	County	Monterey	State	CA	Zip Code	93950-5110
Lender/Client Wedgewood Inc		Address 2015 N	/lanhattan Beach	Blvd Suite 10	0, Redondo Be	each, CA 90278

As per your request I have completed a DRIVE-BY ANALYSIS of the property described herein for the purpose of offering my opinion of its current estimated market value.

The appraiser has completed a limited physical inspection of the exterior of the subject property, and the report is only a brief synopsis of the data compiled during the evaluation process.

The market analysis is limited to an exterior inspection of the subject and an external inspection of the comparables, available public record information and/or the information available through the appraiser's various published data sources. This report will determine the estimated Market Value of the Fee Simple interest of the subject as described herein. There does not appear to be any adverse influences or environmental concerns.

Function:

This report function is to assist the client in determining the Market Value of the subject property for Trust Deed Financing purposes.

Purpose & Intended Users:

The purpose of the appraisal is to estimate the market value of the subject property as of a specific date for use in a mortgage or finance transaction only. There are no other intended uses. The intended users are the employees and/or agents of Wedgewood Inc.

Highest & Best Use Analysis:

For the purposes of completing this report the appraiser has assumed that the subject's highest and best use is its current use as a residential development.

The report DOES NOT comply with all the guidelines set forth by, and is considered a departure from, the Uniform Standards of Professional Appraisal Practice (USPAP), which is issued by the Appraisal Standards Board of the Appraisal Foundation. The client should take this into consideration reviewing the report.

DIGITAL SIGNATURE:

This appraisal is digitally signed. This digital signature requires a security password known only by me, Michael A. Yaklin. No changes can be made to any portion of the appraisal once it has been digitally signed. The digital signature used on this appraisal is an accurate representation of my signature.

SCOPE OF THE APPRAISAL

The appraisal process involves the collection, verification, and analysis of specific and general data related to the subject property and the residential real estate market. The following steps were taken in the completion of this report.

- 1. I made a preliminary inspection of the property to determine the appraisal problem.
- 2. I inspected the subject property and studied recorded parcel and plat maps to determine its physical characteristics, including site configuration, condition, topography, access, utilities, etc.
- 3. The land use controls of residential uses within the City of Pacific Grove were researched.
- 4. The Monterey County Assessor's records were researched for transfers of the subject property.
- 5. Sale comparables were obtained through searches of public records, MLS, and published sources of real estate data. The comparable data was screened for comparability to the subject.
- 6. Interviews were conducted with brokers, buyers, and sellers involved in the selected comparable properties.
- 7. I completed an analysis of the subject property in relation to the selected comparables.
- 8. I organized the data and completed the appraisal report.

MARKET APPROACH

Comments on Sales Comparison

The sales comparison approach is based on the principle of substitution which is defined by the Appraisal Institute as follows: "The principle of substitution as applied in the sales comparison approach holds that thevalue of a property that is replaceable in the market tends to be set by the cost of acquiring an equally similar substitute property." This principle is applied using accepted methods of paired sales analysis, when possible, and by applying adjustments to generally accepted units of comparison.

NO ADJUSTMENT WAS MADE FOR AGE OR TOTAL ROOM COUNT. AGE OR TOTAL ROOM COUNT, PER SE, ARE NOT FACTORS CONSIDERED IN THE NEGOTIATION OF THE SALES PRICE. RATHER THE EXTENT OF REMODELING, QUALITY OF FINISH, AND GROSS LIVING AREA ARE THE PREDOMINATE FACTORS. FURTHER ADJUSTMENTS WERE MADE AS NEEDED.

QUALITY OF CONSTRUCTION:

Comparables were not given adjustments due to being similar in quality of construction to the subject property. It was indicated to the appraiser through market analysis, matched pair study, a review of available MLS information and the external viewing of the comparables that properties having a lower improvement price per square foot are inferior in quality of construction compared to properties having a higher improvement price per square foot (everything else being equal). Based on this information the appraiser made the appropriate adjustments.

File No. 35221581RedwoodHoldingsLLC Case No.

Borrower Redwood Holdings LLC

Property Address 2861 Ransford	Ave					
City Pacific Grove	County	Monterey	State	CA	Zip Code	93950-5110
Lender/Client Wedgewood Inc	·	Address 2015 N	Manhattan Beach	Blvd Suite 100). Redondo Be	each. CA 90278

CONDITION:

Comparables 1, 2 and 4 were given negative adjustments due to their condition and/or upgrades. It was indicated to the appraiser through market analysis, matched pair study, a review of MLS information, interviews with local real estate brokers and the external viewing of each comparable that properties having a higher improvement price per square foot are superior in condition and/or upgrades in comparison to properties having a lower improvement price per square foot (everything else being equal). Adjustments based on research conducted.

It was noted that comp# 4 is over 20% smaller in GLA than the subject. Comps are within the subjects market area.

A methodical twelve month search of the subject's market area was performed for recent comparable sales that have occurred. This data is then analyzed to determine which of the properties are deemed to be the most similar to the subject in terms of location, age, GLA, lot size, amenities and room configuration. The search produced a sufficient amount of data to provide for a reasonable analysis and determination of a value indication that can be applied to the subject property.

Due to the lack of comparables, the appraiser comparable search parameters used for the sales comparison was within the prior 12 months from the effective date, within a 1.00 mile radius for comps 1-4 within 20% GLA difference for comp with similar style and utility. (See comments above) Comparables in report were best and most comparable properties with least amount of adjustments available at time of effective date of appraisal, any other more recent comparable properties available at time of appraisal would have been included in report.

SALES FINAL RECONCILIATION: Comp 3 is given the most weight with a similar GLA, location and similar lot size, with Comp 4 listing providing further support to value showing current market conditions as of the effective date. All the comps are considered the best available and most similar to the subject. All the comps support final reconciled value well. There is a very limited number of similar properties as the subject which have sold within the previous 6 months in the subject's neighborhood. Comps included in the appraisal are the most similar and best available properties at the time of the report.

Comp 1 is noted to be similar location, similar quality and superior condition, noted to have superior lot size, superior ocean view, superior bath count and superior GLA. Improvements noted per MLS "modern amenities like high end appliances and finishes, electric car charger and smart home technology, two ensuites - one with a steam shower and a tub, views down onto Spanish Bay Golf Course from the comfort of your own home. Ocean and forest views from any room." Comp is given less weight due to having superior characteristics, comparable used to bracket the subject.

Comp 2 was noted to be similar quality and superior condition as noted per MLS photos, inferior lot size, superior ocean view, superior GLA and superior garage count. Per MLS it was noted "ocean view property with many recent updates including a well appointed primary en-suite, remodeled bathroom with walk-in wardrobe. Living room has a brand new custom built entertainment center. Kitchen has quartz counter tops, gorgeous new island with built-in microwave and spice rack, expansive deck, from the living room, kitchen". Comp is given less weight due to having superior characteristics, comparable used to bracket the subject.

Comp 3 was noted to be similar quality and condition as noted per MLS photos noted the property to have superior lot size, superior bath count and inferior GLA. Per MLS it was noted "kitchen, equipped with brand new leathered granite countertops. Guest wing featuring a jack-and-jill bathroom. Ascend the stone stairway to the upper driveway and garage." Comp was noted as having minimal amount of NET ADJUSTMENTS. Comparable was given the most weight.

Salient market factors most important to the typical buyer in purchasing were lot size, GLA, and condition and was the most considered factors in the final determination of value.

The comparables are adjusted as follows:

LOCATION:

Comparable #4 are given negative adjustments due to their slightly superior locations. It was indicated to the appraiser through market analysis and matched pair study, as well as interviews with local real estate brokers that properties located adjacent to or in close proximity to schools, siding or backing busy neighborhood thoroughfares or freeways or RR Tracks, or backing commercial properties suffer from external obsolescence due to increased traffic noise and demand lower prices on the open market. The subject and comp #1, 2 and 3 suffer slightly from external obsolescence due to their properties located adjacent to or in close proximity to schools a busy neighborhood thoroughfare or freeway or RR Tracks. Based on this information the appraiser made the appropriate adjustment.

LOT SIZE

It was indicated to the appraiser through a market analysis, that properties having larger lot areas demand higher prices on the open market. Based on this information the appraiser made the appropriate adjustments at \$5.00 per square foot of additional lot area. Data was taken from MLS data. Adjustments based on Extraction (deduct depreciated value of improvement from total property value). (Adjustments rounded to the nearest \$500.00).

VIEW

Comparables 1 and 2 are given a negative adjustment due to their properties having a water view. It was indicated to the appraiser through market analysis, matched pair study, a review of MLS information and the external viewing of each comparable that properties having a water view demand higher prices on the open market compared to properties having no view. Based on this information the appraiser made the appropriate adjustment.

ROOM #:

The appraiser has taken variances in total room count and bedroom count into consideration in the SIZE section of this report. The appraiser has done so as to not make duplicate adjustments when determining additional size value. (Bath = \$10,000, 1/2 Bath = \$5,000)

SIZF

Adjustments based on \$195.00 per additional square foot of gross living area determined by market analysis and matched pair study. (Adjustments rounded to the nearest \$500).

LISTING RATIO:

Comparable 4 was given no adjustment due to the sales to listing ratio being 100%. Adjustment based on 1004MC, market analysis and matched pair study which included interviews with local real estate brokers to determine the difference in median sales price as a percentage of listing price.

OTHER ADJUSTMENTS:

All other improvement adjustments are based on Market Analysis. All sales verified through public records, First American Real Estate Solutions, Fidelity National Title, NDC Data and/or MLS as per USPAP requirements. This is considered a complete appraisal report.

Other amenities/features adjustments were applied as appropriate and are self-evident; such as pool amenities and levels of updating/remodeling. These adjustments are based on paired sales analysis whenever possible.

DEFINITION OF MARKET VALUE

Market Value:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus.

Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- 1. buyer and seller are typically motivated;
- 2. both parties are well informed or well advised; and acting in what they consider their best interests;
- 3. a reasonable time is allowed for exposure in the open market;
- 4. payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and
- 5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

The above definition is based on an example indicated in the 1996 edition of the Uniform Standards of Professional Appraisal Practices by compiled by The Appraisal Foundation.

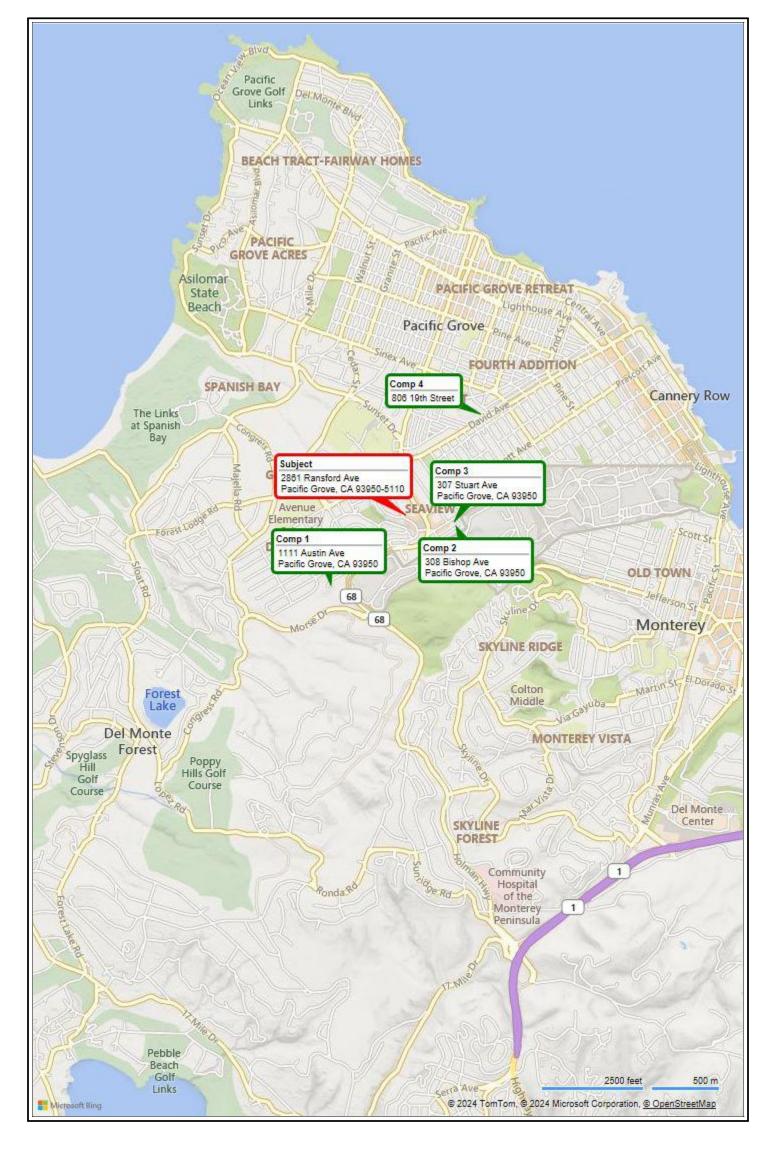

I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

Michael Yaklin File No. 35221581RedwoodHoldingsLLC Market Conditions Addendum to the Appraisal Report Case No. The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009. 2861 Ransford Ave 93950-5110 Property Address City Pacific Grove State ZIP Code Redwood Holdings LLC Borrower Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include that data in the analysis. If data sources provide all the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc. Prior 7-12 Months | Prior 4-6 Months Current - 3 Months **Inventory Analysis** Total # of Comparable Sales (Settled) Declining Increasing Stable 0.33 0.33 1.33 X Absorption Rate (Total Sales/Months) Increasing Stable Declining X Total # of Comparable Active Listings 0 1 Declining Stable Increasing Declining Months of Housing Supply (Total Listings/Ab. Rate) 0 3.03 0.75 Increasing Median Sales & List Price, DOM, Sale/List % Prior 7-12 Months Prior 4-6 Months Current - 3 Months Overall Trend 1,902,000 1,911,000 1,919,500 Increasing X Median Comparable Sales Price Stable Declining Median Comparable Sales Days on Market 9 39 11 Declining Χ Stable Increasing 1,917,000 Median Comparable List Price 1.905.000 1.923.000 Х Increasing Stable Declining Stable Median Comparable Listings Days on Market 0 86 4 Declining Increasing Increasing X 100% 100% 100% Stable Median Sale Price as % of List Price Declining Declining X Seller-(developer, builder, etc,) paid financial assistance prevalent? Yes No Stable Increasing Explain in detail seller concessions trends for the past 12 months (e.g. seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs condo fees, options, etc.) Seller concession trends in the past 12 months are 1% to 3% of the buyers closing costs. This is typical for the area and does not affect the market value X Yes No If yes, explain (including the trends in listings and sales of foreclosed properties). Are foreclosure sales (REO sales) a factor in the market? Their are a few Foreclosure sales in the market neighborhood, which has some effect on the market value of currently listed properties. The marketing and exposure time appear to be at an average rate of 1 day to 6 months if listed at market price. Cite data sources for above information. Data Sources: MLS ID = 76, State = California, MLS Board = ProMLS - Matrix Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales, and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions. There were a total of 7 Comparable Settled Sales in the past 12 months. The Median Sales Price for the prior 7-12 months was \$1,902,000 and for the current to prior 3 months is \$1,919,500. The Months Supply for the prior 7-12 months was 0 and 0.75 for the current to prior 3 month period. The Median Days on Market for the prior 7-12 months was 8.5 and 11 for the current to prior 3 month period. The statistics above were generated from an exported MLS market search. Details regarding the calculations and process can be found online at http://www.bradfordsoftware.com/1004mc/calc.shtm If the subject is a unit in a condeminium or cooperative project, complete the following Drojoet Name

if the subject is a drift in a condomination of cooperative	e project, complete the	ioliowing.	i iojectivanie.

UNIFORM APPRAISAL DATASET (UAD) Property Condition and Quality Rating Definitions

File No. Case No 35221581RedwoodHoldingsLLC

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized condition and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. It's estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C.4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability are somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

UNIFORM APPRAISAL DATASET (UAD) Property Condition and Quality Rating Definitions

File No. Case No 35221581RedwoodHoldingsLLC

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

05

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Ω6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Requirements - Definitions of Not Updated, Updated and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components meet existing market expectations. Updates do *not* include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
