Comments Regarding Pricing Strategy		
<p>Subject details are taken from tax records. The comp pricing provided are for current market conditions and they do provide a basis point for current subject price opinion. To locate comparables in close proximity of subject, it was necessary to exceed GLA, year built, style, condition, bed/bath count and lot size. Due to limited comps in the area, active comp were used despite not bracketing the year built and GLA, both sold and active comps were used despite not bracketing the lot size as they are still considered to be reliable comparable. To reach a value conclusion, most weight was placed on CS2 and LC2, as they are most similar to subject condition and overall structure. The Subject is located closer to the main road, park, school, non-residential building, busy road and commercial area. This however, will not have an effect on value and marketability. There was no mailbox number. Address was verified by surrounding house numbers.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

Report Instructions

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report.

Instructions last updated: 07/29/2024

Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

Property Condition Definitions:

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
