Comments Regarding Pricing Strategy		
<p>Subject-recommended pricing is based on the best of the comparable properties in the immediate market area. Pricing is based on those comparables used in this report which are closer to the subject in proximity and most similar in terms of GLA, age, lot size, other features, and amenities. Search for comps was done using a 1-mile radius, 30% difference in gla, 25 years difference in age, and a 360-day close date. Comparables used in this report are the best available at the time of inspection and represent the immediate market scenario. Due to a lack of listing comparable properties in the area, it was necessary to use comps with variance in +/- 20 years, expanded back 360 days from the current date, +/- 30% of the subjects gla. Similar styles, also locations, and conditions were considered due to limited comps in the immediate area.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

The current valuation is coming in higher in value than the most recent duplicate. The reason for the variance in values is due to condition. The prior report was completed in Fair condition; however, current photos show that the subject is in better condition than it was at the time of the previous report.

Report Instructions

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report.

Instructions last updated: 07/29/2024

Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

Property Condition Definitions:

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
