Comments Regarding Pricing Strategy		
<p>Subject attributes are taken from COUNTY TAX. The comp pricing provided are for current market conditions and they do provide a basis point for current subject price opinion. To locate comparable in close proximity of subject, it was necessary to exceed style, bed/bath count and lot size. Within 1 mile and 12 months back, there were limited comparable found. To locate comparable, I needed to exceed proximity up to 2 miles. Due to limited comps in the area, active comp were used despite not bracketing the GLA as they are still considered to be reliable comparable. Due to limited comps in the area, sold comp were used despite not bracketing the bed count and lot size as they are still considered to be reliable comparable. Price range was over 20% in difference due to the neighborhood area hard to find comparable that is similar to subject in condition and criteria. There were no comparable found within 1 miles having similar bed count as subject for sold comp. To reach a value conclusion, most weight was placed on CS2 and LC2, as they are most similar to subject condition and overall structure. The Subject is located closer to the main road, creek, busy road and commercial area. Comparable crossed neighborhood major roadways. This however, will not have an effect on value and marketability. There was no mailbox number. Address was verified by surrounding house numbers.</p>		

Clear Capital Quality Assurance Comments Addendum

Instructions last updated: 07/29/2024

Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

Property Condition Definitions:

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
