Comments Regarding Pricing Strategy		
<p>The above value is given as the current value of the home and that is could be sold in it's as-is condition. The values in this area have been affected by the rate increases, devaluing as much as 10%, but there is still a lack of inventory. The location is very much like that of the subject, due to the lack of sales and active listings the comps were taken within a radius of one half mile. The neighborhoods are all the same in makeup and condition. The square footage is also in a comparable range as are the bedroom and the bathroom counts. Lot sizes are within a range making them comparable to that of the subject. The market is shifting faster than the comps are showing. With the values of smaller sqft homes in this area devaluing as much as 5-20% over the last 6 months. Over the past 5 months the builders have become very flexible in pricing, offering monies to buy down the interest rates, and commissions over 3%+. REOS postings for trustee sales have increased in this area. The subject is in a condition that will not require any repairs to be marketed in it's as-is condition and received full market consideration.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

Report Instructions

This section shows the instructions that were approved by the customer and provided to the broker prior to completing the report.

Instructions last updated: 07/29/2024

Purpose:

Please determine a Fair market price for this property at which it would sell in a typical marketing time for the area.

Comparable Requirements:

If any of the following comparable criteria cannot be met, the commentary is required as to why you expanded your search, and what the effect on price will be.

1. Use comps from the same neighborhood, block or subdivision.
2. Use REO comparables only if the market is driven by REOs and they are comparable in characteristics and condition.
3. Use comps that have closed in the past 3 months to show the current market conditions. In rapidly changing markets, active listing comps should be given equal or greater weight than sold comps in your analysis.

Property Condition Definitions:

1. Poor: Uninhabitable or severely damaged from fire, flood, vandalism or mold
2. Fair: Repairs needed, may not be eligible for all forms of financing, below the neighborhood average
3. Average: Minor cosmetic or no repairs needed; typical for the neighborhood, move-in ready but no significant updates or renovations
4. Good: Above average, move in ready, no repairs necessary and has recent and significant updates and/or renovations (or, for customers that do not provide for 'Average', any move-in ready property)
5. Excellent: Newer construction (1-5 years) or high end luxury
