I used the comparative market analysis that I pulled to get the values in this neighborhood. I leaned more towards the sold comps when valuing as they give the truest current market value. All necessary differences between comparables have been taken into consideration when valuing.

### Clear Capital Quality Assurance Comments Addendum

Reviewer's The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported. Notes
