Comments Regarding Pricing Strategy		
<p>The subject details are taken from tax records and in average marketable condition. Within 1 mile, +/- 20 % GLA and 6 months closing date, there was limited comparable which was similar to the subject in terms of condition, style, bed-bath, pool, lot size and hence the attributes had to be expanded beyond tolerance with similar attributes had undergone various upgrades and hence properties with minor/ dated updates are considered average in overall condition. I have elected to increase the time span of closed sales past the favorable 3-month window to find comparable that required the fewest net adjustment. The Property is located with access to major roads with Commercial establishments, water bodies within 1000ft. Comparable shares values defining qualities with the subject in regard to GLA, condition and other attributes, so the subject location characteristics don't affect its marketability. Since there were limited comparable that were similar to the subject attributes within the same side of the busy road, I was forced to select comparable crossing a major road and it will not affect the subject marketability. In delivering the final valuation, the most weight has been placed on CS1 and CL3 which are similar in GLA, condition.</p>
